TABLE OF CONTENTS

No. 1. January–February

Mycoparasitism, H. L. Barnett 1
Notes on clavarioid fungi. I. The Clavulina castaneopes complex, R. H. Petersen 20
Same Fungi Imperfecti of the Punjab and Kashmir, Lewis E. Wehmeyer .. 29
The perfect stage of Cercospora magnoliae, Charles S. Hodges and Frank A. Haasis 53
Some new species of fungi on starch from the Ukraine, V. T. Panasenko ... 58
The perfect stage of Helminthosporium cynodontis, R. R. Nelson 64
Germination of basidiospores of Lycoperdon species and Scleroderma lycoperdoides, Glenn S. Bulmer and Everett S. Beneke 70
Studies on lignicolous Sordariaceae, George C. Carroll and Anders Munk .. 77
A variety of Absidia isolated from Comandra pallida, Gloria Rall and W. G. Solheim 99
Identity of the fungus causing red band disease on pines, B. D. Thyr and C. Gardner Shaw 103
A nonpigmented form of Gibberella roseum forma cerealis on corn in Indiana, A. J. Ullstrup 110
The perfect stage of Rhizoctonia hiemalis, H. S. Whitney and J. R. Parmeter, Jr. 114
Systematics of Helminthosporium and related genera, E. S. Luttrell 119
Notes and Brief Articles 133
Notice 138
Mycologia—Financial Reports 139

No. 2. March–April

Biochemical characterization of some components in cell-free extracts from Penicillium chrysogenum, P. B. Hamilton and S. G. Knight 143
Soil fungi from Orissa (India). III. A new species of Pseudoarachniotus with punctate spores, B. G. Dutta, G. R. Ghosh, G. F. Orr and H. H. Kuehn 153
Effect of brightener on spore germination, Marjorie A. Darken and Marjorie E. Swift 158
A Parataeniella (Trichomycetes, Eccrinales) in an isopod, Robert W. Lichtwardt and Alice Whei-chu Chen 163
Studies on life cycle of Physarum gyrosum and other Myxomycetes, James L. Koevenig 170
Growth and pigmentation of Aspergillus umbrosus, Louis J. Carbone and G. T. Johnson 185
The perfect stage of Helminthosporium spiciferum, R. R. Nelson 196

The subsection Lactarioideae of Russula, ROBERT L. SHAFFER 202
Germination of conidia of Erysiphe cichoracearum, RALPH M. MORRISON 232
The plasmodia of the Myxomycetes Licea biforis and Cribraria violacea, MARY ANNUNCIATA MCMANUS 237
Geographic variation and gene flow in Puccinia cruciferarum, D. B. O. SAVILE 240
Notes on Illinois resupinate Hymenomycetes, ANTHONY E. LIBERTA 249
A preliminary report on a perfect family of exclusively protosexual yeasts, LYNFERD J. WICKERHAM 253
Thermophilic and thermotolerant molds and actinomycetes of mushroom compost during peak heating, C. L. FERGUS 267
New species of Uredinales on Mexican Leguminosae, JOHN W. BAXTER 285
Sexuality of Urocystis colchici, HIDEO TACHIBANA AND RUBEN DURAN 289
The genus Ditiola, LORENE L. KENNEDY 298
Notes and Brief Articles 309
Reviews 320

No. 3. MAY–JUNE

The basidia of Exidia nucleata. I. Ultrastructure, KENNETH WELLS 327
The effect of mycorrhiza on the growth of maize, J. W. GERDEMANN 342
The rediscovery of Aspergillus cervinus, M. CHRISTENSEN AND D. I. FENNELL 350
Aspergillus kanagawaensis and related species in Wisconsin forest soils, M. CHRISTENSEN, D. I. FENNELL, AND M. P. BACKUS 354
Studies on the velocity of discharged sporangia of Pilobolus kleinii, ROBERT M. PAGE AND DONALD KENNEDY 363
Hypoxylon pruinatum: the chromosome number, JACK D. ROGERS 369
Adiaspiromycosis in Argentine mammals, WILLIAM L. JELLISON AND REXFORD D. LORD 374
A new species of Neurospora from soil, A. C. NELSON, R. O. NOVAK, AND M. P. BACKUS 384
Some Colletotrichums on potato and tomato, CHARLES CHUPP 393
A cadaver yeast and related species, LYNFERD J. WICKERHAM 398
Budding in Emmonsia crescens, C. W. EMMONS 415
Notes on fungi from north-east India—XX. Two new parasitic fungi from the tea gardens of Assam, V. AGNIHOTHRUDU 420
Incompatibility in the Microsporum gypseum complex, IRENE WEITZMAN 425
Thaxter's Myrioblepharis, WILLIAM J. KOCH 436
A new Polyphagus in algal culture, ROBERT M. JOHNS 441
Notes and Brief Articles 452
Notices 462
Reviews 463

No. 4. JULY–AUGUST

A re-evaluation of Myxotrichum spinosum and M. cancellatum, G. F. ORR AND H. H. KUEHN 473
A new genus of the Gymnoascaceae with dark ascocarps, G. F. ORR AND H. H. KUEHN 482

Development of the resting sporangia of two species of Coelomomyces, CLYDE J. UMPHLETT 488
Two varieties of Monocillium humicola in Wisconsin forest soils, MARTHA CHRISTENSEN AND M. P. BACKUS 498
Relationships among Streptomycetes, Nocardiae, Mycobacteria and other Actinomycetes, L. A. JONES AND S. G. BRADLEY 505
A new genus of the Hyphomycetes from soil, G. L. BARRON 514
Vegetative traits associated with mating type in Neurospora tetrasperma, H. BRANCH HOWE, JR. 519
Monograph of Chroogomphus (Gomphidiaceae), ORSON K. MILLER, JR. 526
The white form of Physarella oblonga, CONSTANTINE J. ALEXOPOULOS 550
Heteroecism in Uromyces setariae-italicae, the rust on Italian millet, M. J. NARASIMHAN AND M. J. THIRUMALACHAR 555
The Myxomycetes of India—XVI, K. S. THIND AND H. S. SEHGAL 561
The genus Absidia: Gongronella and cylindrical-spored species of Absidia, C. W. HESSELTINE AND J. J. ELLIS 568
Notes and Brief Articles 602
Reviews 637

No. 5. SEPTEMBER–OCTOBER

Agathe L. Van Beverwijk (1907–1963), AMELIA C. STOLK 641
William Laurence Gordon (1901–1963), W. A. F. HAGBORG 645
Growth of Cephaliophora tropica in response to various nitrogen sources, K. L. WEIK AND A. J. PAPPELIS 650
Interrelation of pH, temperature, and growth in the induction of pleomorphism in Trichophyton mentagrophytes, DEANA T. KLEIN 656
Germination of the macroconidium of Histoplasma capsulatum, ROGER D. GOOS 662
The effect of temperature upon growth requirements of Mycoderma vini Y-939, ILDA MCVEIGH AND KATHERINE MORTON 672
Artificial culture of Entomophthora muscae and morphological aspects for differentiation of the genera Entomophthora and Conidiobolus, M. C. SRINIVASAN, M. J. NARASIMHAN, AND M. J. THIRUMALACHAR 683
Pseudoamyloid reaction in pore fungi, JORGE E. WRIGHT 692
A new genus of the Tulasnellaceae, B. LOWY 696
Use of fluorescent antibody techniques in observations on the morphogenesis of fungi, R. D. GOOS AND D. F. SUMMERS 701
An addition to the genus Fuscoboletinus, RENÉ POMERLEAU 708
The Myxomycetes of India—XVII, K. S. THIND AND M. S. MANOCHA 712
The genus Cheilymenia in North America, WILLIAM C. DENISON 718
Chemical analysis of the cell wall of Ceratocystis ulmi, M. A. ROSINSKI AND R. J. CAMPANA 738
Isolation and pure culture study of marine Phycomycetes, MELVIN S. FULLER, BRUCE E. FOWLES, AND D. J. MCLAUGHLIN 745
A new Lophodermium on ponderosa pine, JOHN M. STALEY 757
The taxonomic position of the genus Thelebolus, JOHN C. COOKE AND MARGARET E. BARR 763
A new marine ascomycete from wood, JAN KOHLMEYER 770

Notes and Brief Articles 775
Reviews 788

No. 6. NOVEMBER–DECEMBER

Two new species of Ceratocystis from hardwoods, R. W. DAVIDSON, T. E. HINDS, AND E. R. TOOLE 793
Hyphal characteristics of certain fungi in wood, J. W. ROFF 799
Species of Monilia and Torula from food products, V. T. PANASENKO 805
A new genus of Eurotiaceae from soil, M. J. THIRUMALACHAR, MARVIN D. WHITEHEAD, AND P. N. MATHUR 809
Effect of various carbon sources on growth and sexual reproduction of Aphanomyces euteiches, G. C. PAPAVIZAS AND W. A. AYERS 816
Further observations on hyphal tips isolated from heterocaryons in Cephalosporium mycophilum, R. W. TUVESON 831
The genus Pseudomassaria in North America, MARGARET E. BARR 841
Arachniotus aureus, H. H. KUEHN, K. TUBAKI, AND G. F. ORR 863
The natural history of Microsporum nanum, LIBERO AJELLO, EDITH VARSAVSKY, OLIVER J. GINTHER, AND GEORGE BUBASH 873
A new member of the Mycetozoa, LINDSAY S. OLIVE 885
Ultrastructure of Thraustochytrium aureum, a biflagellate marine Phycomycete, SOLOMON GOLDSTEIN, LOUIS MORIBER, AND BETTY HERSHENOV 897
Syncephalis depressa from India, B. S. MEHROTRA AND R. PRASAD 905
Studies in the enzyme make-up of Alternaria. V. Aldolase activity, J. P. VERMA 909
Notes and Brief Articles 920
Correction to Mycologia, Volume 55 929
Notice 929
Index 930
